

Medicare is complicated. We simplify it.

Everyday, we support organizations just like yours and serve as a trusted resource to your Medicare only or dual-eligible Medicare and Medicaid (D-SNP) patients.

Who We Are

RetireMEDIQ is a local organization servicing individuals in Ohio, Kentucky, and Indiana with their Medicare needs. Our team of expert advisors supply the education and resources your patients need to feel confident in their Medicare decision, help them to enroll in a plan, and provide continued lifelong support as their health care needs change. We are here for you as your expert partner in Medicare!

Who We Help

Our Partners: We work with a variety of centers and systems, including dialysis centers, health care centers, hospital systems, employer groups, and retiree programs, to help them navigate Medicare for their patients, employees, and retirees.

Our Clients: We work with individuals one-on-one to explore their health care options and to select the right plan for their needs and budget. Our clients may be Medicare only or be dual-eligible with Medicare and Medicaid (D-SNP).

How We Help

Our Partners: Our community development team is at your disposal! We provide support onsite, online, or over-the-phone for:

- Answering Medicare questions
- Providing Medicare 101 trainings
- Supporting community outreach programs
- Supplying material resources, including:
 - Educational materials
 - Administrative materials
 - Giveaways (i.e. health kits for patients, tote bags at events, Rx bags for dispensary, and more)

Understanding the nuances of Medicare can be stressful for you and your staff. Let us take it off your plate. We want to be your #1 resource for Medicare expertise and support.

Our Clients: Our client engagement team resolves any plan-related issues that may arise and can answer any questions your patients may have. Ongoing support includes:

- Ensuring your patients receive the preventative care needed to stay healthy.
- Helping your patients to maximize their plan benefits.
- Confirming whether their prescription drugs are covered under their plan.
- Providing network checks for certain physicians and specialists.
- Assisting with billing questions or issues.
